=====
-----FILE-----Information On "False Positives"-----
=====
This is for people who are claiming that the CHECKER and/or the GAME FILES are causing their PC to be INFECTED with a VIRUS. THESE ARE INNO. FALSE POSITIVES.
The reason you may be thinking your PC is infected is actually because of a few things and I will list below what they are:
**INFO**
If you MOUNT the .ISO file to a VIRTUAL DRIVE or MOUNT THE BURNED GAME DISC to a DVD DRIVE and the CHECKER IS ON THE .ISO or DVD, then when you MOUNT IT, the files that is a FALSE POSITIVE will show up in your ANTI-VIRUS. Since you CANNOT DELETE FILES FROM A MOUNTED IMAGE, your ANTI-VIRUS may continuously say "THREAT IDENTIFIED"
To get around this problem, you have a few steps you can take depending on your ANTI-VIRUS PROGRAM. Some programs, such as AVG ANTI-VIRUS, allow you to add certain files to an EXCEPTION LIST, sometimes called RESIDENT SHIELD. This EXCEPTION LIST is a list of files that the ANTI-VIRUS WILL IGNORE if it comes across them.
You need to ADD THE CHECKER FILES TO THE EXCEPTION LIST THAT ARE ON THE MOUNTED DRIVE. Doing this will stop your ANTI-VIRUS from constantly peeping up saying you're INFECTED. After you have added these files, you will then have to ADD THE CHECK FILES AGAIN TO THE EXCEPTION ONCE YOU COPY THEM TO THE GAME INSTALLATION FOLDER.
Sometimes when you try and copy the IGNORED CHECKER FILES from the MOUNTED DRIVE to your GAME INSTALLATION FOLDER, it stops you and won't let you. What you need to do is either DISABLE YOUR ANTI-VIRUS TEMPORARILY or disable your RESIDENT SHIELD PROGRAM temporarily until you finish copying the files from the VIRTUAL DRIVE to the GAME INSTALL LOCATION.
Once you finish copying the files, go into your EXCEPTIONS LIST and ADD THE NEW FILES YOU COPIED THAT ARE INSIDE THE GAME INSTALLATION FOLDER. Do this and then RE-ENABLE YOUR ANTI-VIRUS/RESIDENT SHIELD PROTECTION and it should not bother you anymore.
IF THIS DOES NOT WORK: You may need to DISABLE YOUR ANTI-VIRUS WHILE YOU PLAY THE GAME.
If you are having problems with this, please post a comment with as much detail as possible so we can remedy the situation.
